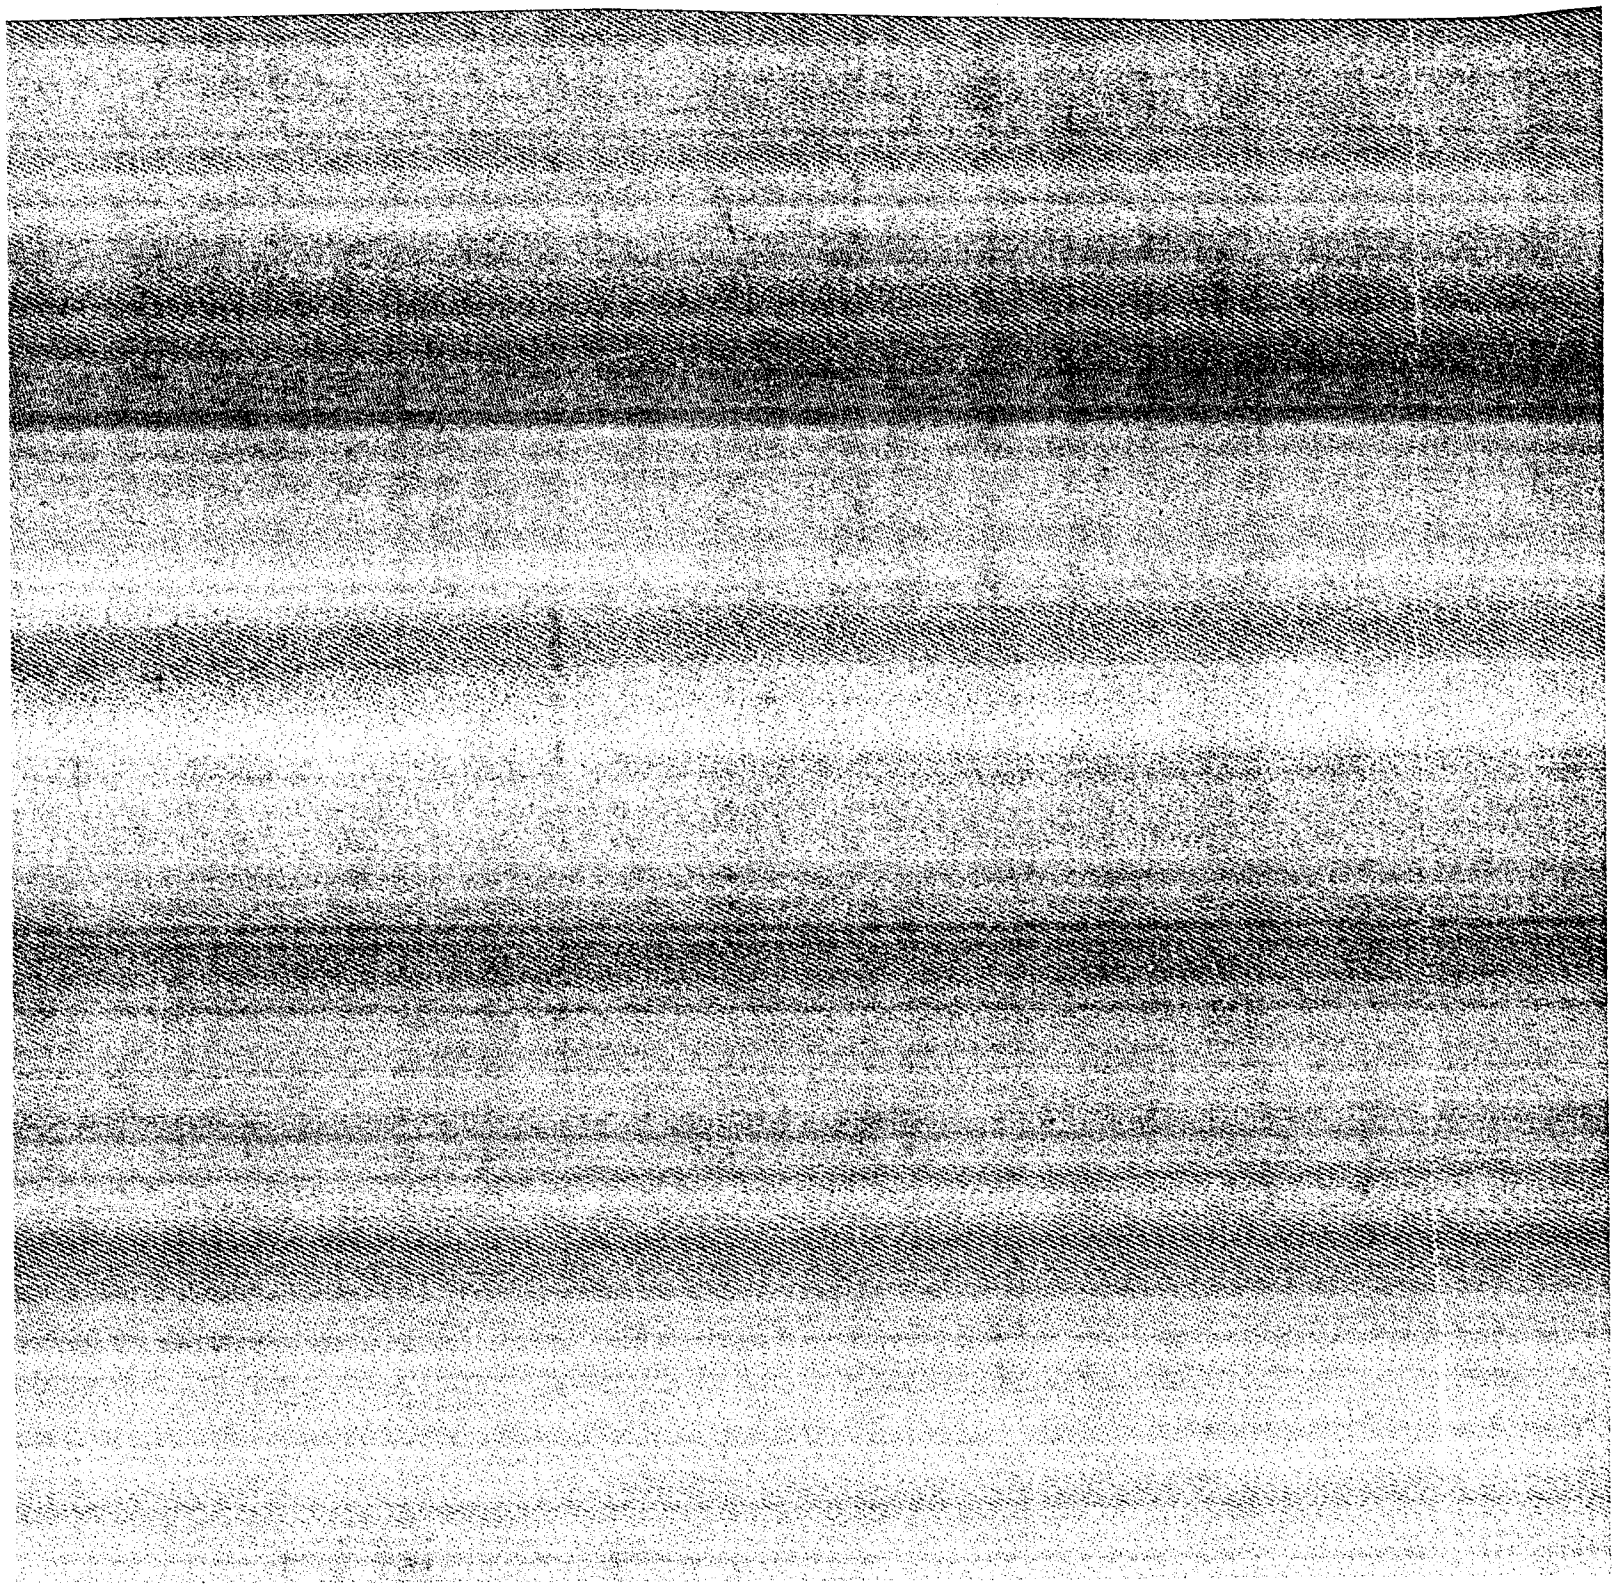
If you do not, file this with or in the JFK clothing file.
The FBI's testimony was more guarded than the opinionrreflected in the Rankin letter because the fibres could have been moved between the time of the assassination and the time the clothing reached the Lab.
The information relating th the shirt and tie are inconplete. By this date the FBI had performed spectrographic analyses. These showed no evidence of the paggage of a buller through the front of the shirt or on the knot of the tie, both here omitted.



This is the same as 62-109090, unrecorded, taken from section 7.
